

REMARKS/ARGUMENTS

The Office previously considered the claims of the parent application to be directed to patentably distinct inventions. Specifically, the Examiner required election of a single group of two groups of inventions, wherein Group (I) reads on claims 1-20, and wherein Group (II) reads on claims 21-25. In the parent application, Group (I) was elected.

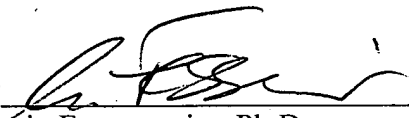

In the present divisional application, *claims 1-20 of the parent are canceled*. Claims 21-25 were amended to conform the claims to the claims previously filed in the response to search report in the corresponding International Phase, and further to correct errors in dependencies.

REQUEST FOR ALLOWANCE

Claims 21-25 are pending in this application. The applicant requests allowance of all pending claims.

Respectfully submitted,

RUTAN & TUCKER
